

PURCHASES AND OUTSOURCING

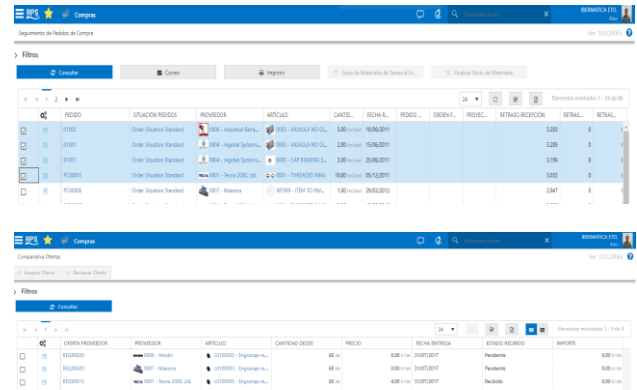

SUPPLIER RELATIONSHIP MANAGEMENT AND PURCHASES TRACKING

RPS Purchase module provides a complete management of material purchases and outsourcing of external work.

From you supply proposals board you can select the most suitable supplier according to prices or delivery terms, and is able to group them in a single order.

Once the order is generated, the cycle is continues, completing the quality inspection, the delivery note and the invoice, creating posting in GLD and Receivable/Payable.

The module allows to have a detailed control over the subcontracted operations and the materials.

Benefits

- Optimal management of purchases and outsourcing.
- Control of committed delivery dates.
- Complete tracking of pending purchases: control of delays, claim to suppliers.
- Integration of providers through the web: Permission to access your RPS for management and consultation.
